DETAILED ACTION

This application is a 371 of PCT/US04/28838 09/07/2004
which claims benefit of 60/500,785 09/05/2003

Election/Restrictions

Applicant's election with traverse of Group II

(Group II) drawn to quinolin-8-ylboronic acid, quinolin-5-ylboronic acid, 2-(4-boronophenyl)quinoline-4-carboxylic acid, 2-((methylamino)methyl)quinolin-8-ylboronic acid.

in the reply filed on 03/06/2009 is acknowledged. The traversal is on the ground(s) that Groups I-III have common structural features of formula II and further it would not be serious burden to search Groups VI-IX as these claims recite the use of compounds of formula II. This is not found persuasive because the compounds and inventions of the different groups are classified differently and a patent search for one group of compounds would not be coextensive with the one required for the others.

The requirement is still deemed proper and is therefore made FINAL.

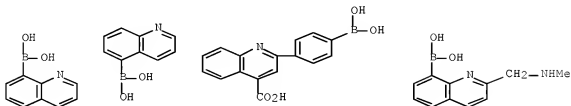

Applicants did not identify the claims encompassing the specific four compounds of the elected Group II. An explicit request for identification of claims encompassing the elected invention was made in the Restriction Requirement filed 02/09/2009 page 7, lines 12-15.

On 03/23/2009, in a telephone interview with Lawrence Villanueva attorney for the applicant, the election of Group II drawn to four specific compounds was confirmed.

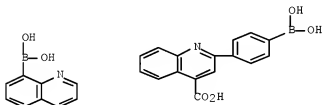

There are 122 claims pending of which claims 1-26 are drawn to compounds.

Art Unit: 1625

The elected Group II is drawn to four specific compounds

of which

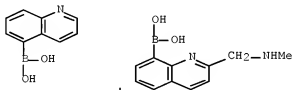

and

are excluded from the base claim 1 by

proviso.

As such the remaining compounds of the elected Group II are

and

and these are examined for

patentability.

Examiner identifies claim 1 to encompass the elected compounds under prosecution.

Claims 2-122 withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to nonelected inventions, there being no allowable generic or linking

claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 03/06/2009.

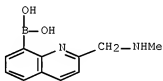

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Allowable Subject Matter

Compounds under prosecution

and

are free of prior art.

Claim 1 is objected to for containing non-elected subject matter and would be allowable rewritten to limit to these two compounds.
